

Online Direct Broadband Services

3G / HSDPA

HSDPA Mobile Broadband is a Cellular Broadband, offering mobility throughout South Africa. Speed adapts to your location. No phone line needed.

The Online Direct 3G / HSDPA Mobile Broadband is a Cellular type Broadband, offering mobility throughout South Africa via the Vodacom cellular network, to the Online Direct Access Point Node. Our 3G/HSDPA offering is primarily a mobile solution designed to connect you to the internet or VPN to the office from remote locations. Get connected in days rather than weeks, as no telephone lines are required.

With an Online Direct HSDPA Modem you can easily browse the Internet, send and receive email, chat via Internet messaging and speak using Skype and similar VOIP programs. You could connect to your home or office network from anywhere to access applications and documents, if your network is configured to allow this.

COVERAGE

We utilise the Vodacom network and have nationwide coverage, you can expect to connect at speeds between GPRS @ 86kbps to, 3G @ 384kbps, HSDPA @ 1.8mbps or HSUPA 7.2mbps. These speeds are all dependant on physical location, device capabilities and network conditions. To view coverage in a specific area go to <http://www.vodamap.net/3g/>
