

Online Direct Router Range

Online Direct is able to offer a range of routing devices for varied needs, from home use to large business.

HOME / SMALL BUSINESS ROUTERS

Our basic routers offer high power wireless capability, at either 54Mbps or 300Mbps, and include optional ADSL functionality, or alternatively an add on for iBurst.

Your connectivity solution may be selected from one of the following options:

Connectivity Type	Product	Once-Off Price	On-Site Installation
ADSL	Edimax/Getnet GA121	R 275	R 500
HSDPA USB	Huawei E173	R 880	-
HSDPA Ethernet Router	Huawei B9706	R 2 800	R 500
iBurst	iBurst USB	R 1 699	-
iBurst Desktop	iBurst Desktop	R 2 399	R 500

The options above are designed for connectivity to a single computer, or to a router from either or both of the two sections below.

Your connectivity solution may be selected from one of the following options:

Connectivity Type	Product	Once-Off Price	On-Site Installation
Standard Wireless Router, 300Mb/s, 4 Ethernet	Buffalo WHR-HP-G300N	R 950	R 600
High Power Wireless Router, 300Mb/s, No Ethernet	Engenius ECB-9500	R 1 265	R 600
Wireless Repeater, 54Mb/s	Engenius EAP-3660	R 1 170	R 600

While a standard wireless router is our most popular choice, larger sites can easily extend their wireless range with a repeater.

For larger organisations we can offer advanced routing including network provisioning and monitoring from one of the following products:

Connectivity Type	Product	Once-Off Price	On-Site Installation
Small business router, quad port with failover to up to four devices	Mikrotik Router	R 540	R 1 200
Small Business Router (up to 25 users) with full network security and monitoring, failover to multiple devices	SonicWALL TZ100	R 5 750	R 1 600
Small Business Router (up to 200 users) with full network security and monitoring, failover to multiple devices	SonicWALL TZ200	R 8 200	R 2 000
Medium to Large Business Router (up to 200 users) with advanced network security and monitoring, failover to multiple devices, with rack-mount option	SonicWALL TZ210	R 11 250	R 2 800

Online Direct Router Range cont.

- Mikrotik offers comprehensive network security, with various failover and network provisioning options, including DNS, DHCP, Dynamic DNS and port forwarding behind a single NAT address.
- SonicWALL, Inc. offers the above as well as secure remote access, Web and E-Mail security, backup and recovery, and policy and management solutions. Offering appliance and software-based products as well as value-added subscription services, SonicWALL's comprehensive solutions enable organisations to secure deep protection without compromising network performance.
- SonicWALL products require an annual subscription of 40% of the initial value (exchange rate and inflation fluctuations notwithstanding) for continued protection and support.
